### **Question from Councillor Phil Barnett Vickers**

*In view of the possibility of Government direct funding moving away from principal authorities to local level (as subjected in the white paper) "Can this Town Council make sure we are well prepared to bid for any monies available to fund specific proposals"?*

### **Response from Newbury Town Council:**

In light of the Government's White Paper indicating a possible shift in direct funding from principal authorities to more local levels, Newbury Town Council fully recognises the importance of being well-positioned to bid for any funding that becomes available.

We are committed to ensuring that the Council has the necessary structures, capacity, and strategic readiness to take full advantage of such opportunities. This includes developing well-evidenced, community-led proposals aligned with local priorities, which can demonstrate strong value and impact.

To strengthen our capability, we will initiate a Community Governance Review. This review will allow us to assess whether our current governance arrangements, including our boundaries, representation, and powers, are sufficient to meet the evolving needs of Newbury's residents. A more robust governance framework will not only improve democratic accountability but also build our organisational resilience and capacity to deliver more services at a local level.

Additionally, we will enhance our internal readiness by:

- Developing a pipeline of potential projects that align with government funding priorities.
- Building partnerships with local stakeholders, community groups, and service providers.
- Reviewing and strengthening our financial and project management systems to meet the requirements of direct government funding.
- Ensuring officers and councillors have the appropriate skills and training to manage increased responsibilities effectively.

By taking these proactive steps, Newbury Town Council aims to be in a strong position to secure and deliver funding that brings tangible benefits to our community.

**Question from Councillor Tony Vickers**

*Is the Mayor aware of the proposal by the local body appropriately known by its acronym “NEWT”, which has secured a lease from Thames Water and significant grant funding to take responsibility for the wetland and scrubland area between Northcroft Park, the former Lambourn railway line, Hill Road and Speen Lane back gardens, to have managed access for the public including a new public footpath circuit? And would the Mayor agree that this Council should now work with West Berkshire District and Speen Parish Councils to help NEWT implement its plans?*

**Response from the Mayor of Newbury (or Newbury Town Council):**

Thank you for your question regarding the proposal put forward by the local body known as NEWT (Nature Enhancement for West-Thatcham and Newbury Town).

We are aware that NEWT has made significant progress in its efforts to enhance and open up access to the wetland and scrubland area bounded by Northcroft Park, the former Lambourn railway line, Hill Road, and the back gardens along Speen Lane. Notably, the group has successfully secured a lease from Thames Water and obtained substantial grant funding to begin the transformation of this ecologically sensitive area into a publicly accessible space that maintains biodiversity while providing managed access, including a new footpath circuit for walkers.

NEWT’s initiative is an excellent example of community-led environmental stewardship. The plans include:

- Ecological management to protect and enhance habitats,
- Improved public access through designated footpaths,
- Educational signage and features to raise awareness of local wildlife and habitats,
- Collaboration with local volunteers and conservation groups.

The Council fully recognises the environmental and recreational value of this project and strongly supports the principle of providing access to nature in a responsible, sustainable way.

However, at this stage, Newbury Town Council is not in a financial position to contribute to the implementation of NEWT’s plan during the current financial year without altering or deferring projects already agreed in our budget. That said, we are very supportive of the project in principle, and we will review the possibility of providing practical and/or financial support as part of our 2025–26 budget considerations.

Furthermore, we agree that there is a clear opportunity for joint working and will seek to engage with West Berkshire Council and Speen Parish Council to explore how best we can collectively support the successful delivery of this valuable local initiative.

We commend NEWT for its vision, organisation, and achievement so far, and we look forward to the positive impact this project will have on both the local environment and the wellbeing of residents.

**Question from Councillor Sam Dibas:**

*'can we get the survey results back to the town council and discuss what people have told us and how what we plan to do to monitor this and make sure we do the right thing to our residents?'*

**Response:** requested that Councillor Sam Dibas confirm which survey was being discussed.

**Clarification from Councillor Sam Dibas:** *'the pedestrianisation consultation'*

**Response:** this was a West Berkshire District Council consultation and that Councillor Dibas would be best served to discuss this directly with Councillor Stuart Gourlay who is the portfolio holder for Highways

**2<sup>nd</sup> question from Councillor Sam Dibas:**

*'I would like to pass a motion to investigate if we as NTC can take legal action against Thame Water for damaging our environment and health as they continue to pump raw sewage in our West Berkshire rivers.'*

**Response:** As per Standing Orders, Motions must be received a week prior to any committee meeting of Newbury Town Council.

However I am able to comment on the proposal: Newbury Town Council has limited legal powers, but there are some specific legal and regulatory avenues by which we could take action or support action against Thames Water for discharging raw sewage into the Rivers Kennet and Lambourn. Here's an outline of the possible bases and mechanisms:

**Public Nuisance (Common Law)**

Newbury Town Council could potentially bring a claim for public nuisance, if the raw sewage pollution interferes with the public's rights or use of land (e.g., use of public footpaths, access to nature, or enjoyment of public spaces near the rivers).

- **Basis:** Unlawful interference with a public right, such as the right to clean waterways or public health.
- **Challenge:** Usually brought by individuals or the Attorney General. Newbury Town Council would likely need to prove it has **special damage** beyond that suffered by the general public, or seek consent to act on behalf of residents. At this time there is no evidence of their being any damage that interferes with a public right

**Judicial Review (Environmental Law)**

While not directly against Thames Water, NTC may consider judicial review of a regulator's failure to enforce environmental laws (e.g., the Environment Agency's lack of action).

- **Basis:** Unlawful inaction by a public body failing to regulate illegal discharges under environmental regulations.
- **Challenge:** This is complex, expensive, and must be initiated promptly. The Council would need legal standing.

**Reporting and supporting prosecution under Environmental Permitting Regulations 2016**

Under the Environmental Permitting (England and Wales) Regulations 2016, it is illegal to discharge pollutants into controlled waters without a permit, or in breach of that permit.

**Basis:** If Thames Water has breached its environmental permits, this is a criminal offence.

**Action:** Only the **Environment Agency** can bring prosecution, but NTC can:

- Collect and submit evidence, however we have no resources to do this
- Lobby for enforcement action,
- Support third-party legal efforts (e.g., by citizen or NGO lawsuits). We would need to identify a third part and support them to do this

**Supporting a Private Prosecution**

NTC could support residents or a group (e.g. Fish Legal, River Action, or a local angling association) to bring a private prosecution under environmental law.

- **Basis:** Breach of statutory duty or environmental permits.

- **Role:** Likely limited to financial or evidential support, as we lack the capacity to prosecute directly.

### **Representations to OFWAT and Environmental Regulators**

While not a court action, the Council can:

- **Submit formal complaints** to OFWAT and the Environment Agency,
- Demand investigations or reviews under **Water Industry Act 1991**,
- Join or initiate **public pressure campaigns** to trigger regulatory response.

### **Conclusion**

While Newbury Town Council cannot easily bring a case to court directly against Thames Water, it could potentially:

- **Support legal action** by affected individuals or groups,
- **Pressure regulators** to act or face judicial review,
- **Document and report violations** for enforcement,
- **Explore nuisance law** if specific harm to the community can be demonstrated.

However legal advice would be essential before proceeding with any action, furthermore NTC would have to reassess the budget before it could take any action.

## **Newbury Town Council**

*Internal Audit Report 2024-25 (Final)*

---

*Susan Cook*

*For and on behalf of  
Auditing Solutions Ltd*

## **Background**

Statute requires all town and parish councils to arrange for an independent Internal Audit (IA) examination of their accounting records and systems of internal control and for the conclusions to be reported each year in the Annual Governance and Accountability Return (AGAR).

This report sets out the work undertaken in relation to the 2024-25 financial year, during our interim reviews of the Council's records for the year, which were undertaken on site on 25<sup>th</sup> September, 19<sup>th</sup> December 2024, 19<sup>th</sup> February 2025 and remotely on 21<sup>st</sup> May 2025 at our offices. We wish to thank the Clerk, RFO and other staff for assisting the process, providing all necessary documentation in either hard copy or electronic format to facilitate this review.

## **Internal Audit Approach**

In commencing our review for the year, we have again had regard to the materiality of transactions and their susceptibility to potential mis-recording or misrepresentation in the year-end Statement of Accounts / AGAR. Our programme of cover is designed to afford assurance that the Council's financial systems remain robust and operate in a manner to ensure effective probity of transactions and to afford a reasonable probability of identifying any material errors or possible abuse of the Council's own and the national statutory regulatory framework. The programme is also designed to facilitate our completion of the 'Internal Audit Report' in the Council's AGAR, which requires independent assurance over a series of internal control objectives.

## **Overall Conclusions**

We are pleased to advise that, based on the work undertaken to date, officers continue to maintain adequate and effective internal control arrangements. We ask that the report be presented to members and a formal response be provided.

Based on the overall satisfactory conclusions drawn from our review programme for the year, we have signed off the IA Certificate in the year's AGAR assigning positive assertions in each relevant area.

We also take this opportunity to remind the Chief Executive Officer (CEO) of the requirements of the guidance notes in the preface to the year's AGAR in relation to the documentation that should be displayed on the Council's website.

## Review of Accounting Arrangements & Bank Reconciliations

The Council maintains its accounting systems using the RBS Rialtas Omega software, there are two bank accounts in place, the current account and instant access account for which cashbooks Public Sector Deposit Fund (PSDF) and at 31<sup>st</sup> March 2025 there were two short term deposit accounts with Handelsbanken, both due to mature in April 2025.

Our objective here is to ensure that the accounting records are being maintained accurately and currently and that no anomalous entries appear in cashbooks or financial ledgers. Consequently, we have to date: -

- Verified the accurate carry forward of the 2023-24 closing balances in Omega to the current year opening Trial Balance;
- Ensured that an appropriate Cost and Nominal Account coding structure remains in place;
- Reviewed three sample months transactions (August 2024, December 2024 and March 2025) on the Current account cashbook and Instant Access account cashbook agreeing detail to supporting bank statements;
- Verified the year-to-date PSDF transactions and Term Deposit Interest receipts by reference to the underlying advice notices of interest earned; and
- Checked and agreed the software-based bank reconciliations as at 31<sup>st</sup> August 2024, 31<sup>st</sup> December 2024 and 31<sup>st</sup> March 2025 to ensure that there are no long-standing, uncleared items or other anomalous entries arising.

### *Conclusions*

*No issues arise in this area currently to warrant formal comment or recommendation.*

## Review of Corporate Governance

Our objective here is to ensure that the Council has robust corporate governance arrangements in place; that Council and Committee meetings are conducted in accordance with the adopted Standing Orders (SOs) and that, as far as we are reasonably able to ascertain as we do not attend meetings, no actions of a potentially unlawful nature have been or are being considered for implementation.

We have completed our examination of the minutes of Full Council and its extant Committee meetings (with the exception of Planning & Highways) for the year to date.

We have noted previously that the Council's extant SOs and Financial Regulations (FRs) are subject to periodic review and re-adoption, the latest NALC Model Finance Regulations were adopted by the Council in October 2024.

We note that the 2023-24 AGAR was signed off by the external auditors with the following comment.

'The smaller authority has confirmed that it has not complied with the governance Assertion in Section 1, Box 9, and it has provided the appointed auditor with an adequate explanation for

non-compliance and details of the actions necessary to address weaknesses identified. This response is consistent with the internal auditor's response to internal control objection 'O'.

### **Conclusions**

*We are pleased to note the Council has provided the proper opportunity for the exercise of public rights for the 2023-24 financial year in accordance with the requirements of the Accounts and Audit Regulations and that the Charity Accounts for 2023-24 are on the Charity Commission Website.*

## **Review of Expenditure and VAT**

Our aim here is to ensure that: -

- Council resources are released in accordance with the Council's approved procedures and budgets;
- Payments are supported by appropriate records, either in the form of an original trade invoice or other appropriate form of document confirming the payment as due and/or an acknowledgement of receipt, where no other form of invoice is available;
- An official order has been raised for the acquisition of goods or service delivery, where one would be anticipated;
- All discounts due on goods and services supplied are identified and appropriate action taken to secure the discount;
- The correct expense codes have been applied to invoices when processed; and
- VAT has been appropriately identified and coded to the control account for periodic recovery.

We have completed our review of procedures and physical payments in this area noting that, invoices are no longer physically signed by staff, but instead an email trail of approval is in place for all invoices, along with a register of invoice queries.

We have selected a sample of payments processed in the year to 31<sup>st</sup> March 2025 to ensure compliance with the above criteria including all those payments individually in excess of £3,500, together with a more random selection of every 40<sup>th</sup> cashbook transaction (irrespective of value). Our test sample includes 90 payments totalling £841,666 and equating to 63% by value of all non-pay expenditure for the year to date.

We note that VAT returns continue to be submitted electronically on a regular quarterly basis and have verified that the final 2023-24 quarters reclaim has been repaid by HMRC. The quarterly claims for June 2024, September 2024 and December 2024 have been submitted, with the totals agreeing to the relevant Omega nominal control account and all have been repaid by HMRC. The quarterly claim to March 2025 was submitted on 9<sup>th</sup> April 2025.

### **Conclusions**

*We noted on our previous report that whilst the Council has good controls in place for the payment of invoices, there was one area where the full process was not complied with, which was the procedure for direct payments. The Financial Regulations have been amended to allow for urgent payments to be paid directly, and we are pleased to note that the agenda for*

*the April 2025 Policy & Resources committee meeting included an item for the retrospective approve of Direct Payments. We are pleased to note that the appendix to the agenda included a detailed list of these payments.*

## **Assessment and Management of Risk**

Our aim here is to ensure that the Council has put in place appropriate arrangements to identify all potential areas of risk of both a financial and health and safety nature, whilst also ensuring that appropriate arrangements exist to monitor and manage those risks identified in order to minimise the opportunity for their coming to fruition.

A risk assessment has been completed for the financial year 2024-25, however the document is somewhat brief, and we understand that the risk assessment is due to be developed further in the 2025-26 financial year. As part of the review the Council should use the best practice model document produced by SLCC (Society for Local Council Clerks) as a guide to ensure it covers all risks.

The Council's insurance cover is provided by Zurich: we have examined the insurance schedule running from 1<sup>st</sup> September 2024 noting that the Council's premises, street furniture and other equipment are appropriately insured together with Public and Employer's Liability set at £12 million and £10 million respectively, Fidelity Guarantee cover at £2 million and "Business Interruption - Loss of Revenue" cover in place at £396,795 all of which we consider appropriate for the Council's present requirements.

The council has 16 different play areas, fitness areas and skate parks. The last annual report was carried out in May 2024, there were no very high or high-risk items identified, and all moderate risk items have now been completed. The next annual risk assessment has just been requested and will take place in the next two months.

In addition to the annual report, weekly risk assessments are carried out by ROSPA trained contractors and bi-monthly assessments by ROSPA trained staff. Staff renew their ROSPA training periodically.

### ***Conclusion***

*To further reduce the risk outlined in R.07 the council should perhaps consider whether all staff should complete an enhanced DBS (Disclosure and Barring) on entering service.*

## **Precept Determination and Budgetary Control**

We aim in this review area to ensure that the Council has appropriate procedures in place to determine its future financial requirements leading to the adoption of an approved budget and formal determination of the annual precept; that effective arrangements are in place to monitor budgetary performance throughout the financial year and that the Council has identified and retains appropriate reserve funds to meet future spending plans.

Since our last visit, the Council has met to approve the budget for 2025-26 and to approve the precept for 2025-26 at a value of £1,817,641.

We are pleased to record that members continue to be provided with sound, periodic and comprehensive management accounting information to provide an appropriate means for monitoring budgetary performance during the current year.

We have reviewed the latest available Omega budget report (to 31<sup>st</sup> March 2025) noting some variances, but with no issues requiring further investigation or comment.

We note that the Total Reserves as at 31<sup>st</sup> March 2025 have increased to £1,438,325 (1,314,283 at 31<sup>st</sup> March 2024) comprising specific Earmarked Reserves (EMRs) totalling £840,912 (£885,730 at the prior year-end) with an increased residual General Fund balance of £597,413 (£428,553 as 1<sup>st</sup> April 2024): the latter presents approximately four months revenue spending at 2024-25 levels and sits within the generally recognised range of three to six months revenue spending.

### ***Conclusion***

***No issues arise in this area currently to warrant formal comment or recommendation.***

## **Review of Income**

The Council receives income from a variety of sources in addition to the annual precept.

We note that the Community Services Committee had reviewed the various scales of fees and charges for 2025-26 and these were reviewed by the Policy and Resources Committee at its meeting in January 2025.

**Cemetery:** We have reviewed detail of burials as recorded in the formal Burial register maintained by the Community Services Officer (CSO) selecting a sample of 7 interments occurring in the year ensuring that each is supported by the relevant undertaker's application, together with the supporting legally required Burial / Cremation certificates. We have been able to confirm that the appropriate fees have been charged and recovered in accordance with the approved scales of fees and charges for all the samples.

**Allotments:** The Council operates several allotment sites with rents charged to tenants appropriately with effect from 1<sup>st</sup> April annually, control being exercised through the RBS Allotments software package.

Whilst the rental year runs from 1<sup>st</sup> April, invoices are generally issued early in the calendar year with a number of tenants paying their fees well in advance of 1<sup>st</sup> April. Consequently, income received in advance of 31<sup>st</sup> March is coded to a control account (Code 560) as "Receipts in Advance" which is then effectively "reversed" in the new financial year to show the allotment income appropriately in the relevant financial year's accounts.

**Market Rents:** The Council collects rent from stall holders, the majority of which are regulars with some ad hoc users. The majority of stall holders pay monthly in advance, others are collected on the day of use. All holders are required to complete a Pitch Application Form and hold Public Liability Insurance.

**Town Hall Room Hire:** Long term tenants renting space at the Town Hall do so under various leases, and rents are collected via a third party. Ad hoc use of council space is via a booking form, with invoices raised on a monthly basis. We reviewed a sample of 5 entries from the diary for October 2024, with no issues outstanding.

We reviewed the Debtors list as at 31<sup>st</sup> March 2025, noting some £13k due to the Council, none of which was over 2 months old at the year-end.

### *Conclusions*

*No issues arise in this area currently to warrant formal comment or recommendation.*

## **Review of Staff Salaries**

In examining the Council's payroll function, we aim to confirm that extant legislation is being appropriately observed as regards adherence to the Employee Rights Act 1998 and the requirements of HMRC legislation as regards the deduction and payment over of income tax and NI contributions, together with meeting the requirements of the local government pension scheme as amended periodically with regard to employee percentage contribution bandings.

We have again examined the operative payroll procedures and consider them sound with payroll production outsourced to DCK Accounting using bespoke IRIS payroll software.

We have, consequently, acquired detail of salaries paid to staff in post in August 2024; their salary points on the national spinal scale and their basic weekly hours where not employed full time: we have also examined the months' payslips, undertaking the following specific work: -

- We have agreed the salary rate paid to each employee in August for each employee to the approved salary scales;
- We have verified the accuracy of tax and NI deductions in that month based on the gross salaries payable to each employee by reference to the relevant HMRC tables; and
- Finally, we have checked to ensure that the correct LG Pension Scheme percentage deductions rates have been applied.

### *Conclusion*

*We are pleased to report that no issues have arisen in this review area warranting comment or recommendation.*

## **Fixed Asset Registers**

Our objective in this area is to ensure that the Council is complying with the Accounts and Audit Regulations (as amended periodically) and maintaining a complete and accurate register of the assets owned and is also observing best practice in managing its stock of assets.

An appropriate formal fixed asset register continues to be in place: we have reviewed its content and consider that it generally meets the needs of a Council the size of Newbury.

We have confirmed the value of the asset register to Box 9 of Section two of the AGAR

### ***Conclusion***

***We are pleased to report that no issues have arisen in this review area, although we recommend as best practise that a photographic register of the assets is maintained for use in the event of an insurance claim.***

## **Investments and Loans**

Our objectives here are to ensure that the Council is “investing” surplus funds, be they held temporarily or on a longer term basis in appropriate banking and investment institutions; that an appropriate investment policy is in place; that the Council is obtaining the best rate of return on any such investments made and that interest earned is brought to account correctly and appropriately in the accounting records.

We also aim to ensure that any loan repayments due to or payable by the Council are transacted in accordance with appropriate loan agreements.

The Council currently has £557,387 invested in the CCLA PSDF which we have verified to their third-party advice note and confirmed to the capital investment sum in the Omega control account. We have duly, as indicated in the first section of this report, checked the accurate recording of the year-to-date dividends received and will complete a further check at our final visit.

The Council also currently has £500,000 in two short term deposit accounts with Handelsbanken, which were due to mature during April 2025 and which we have confirmed as part of our review of accounting arrangements and bank reconciliations.

### ***Conclusions and recommendations***

***Whilst the Council has an Investment Policy in place, this was last reviewed in 2023. To ensure the Council is making the best decisions regarding risk management and interest earning potential, it is good practise for the Investment Policy to be reviewed annually.***

## **Statement of Accounts and AGAR**

Our objective here is to ensure that the financial data to be reported in the AGAR Section 2 is consistent with the year-end detail in the Omega accounting software and complies with current legislation on local government accounting as it applies to a Council of this size.

### ***Conclusions***

***No matters arise from our work in this area and, based on the satisfactory conclusions drawn from our work programme during the year, we have duly signed off the IA Certificate in the Council’s AGAR assigning positive assurances in all relevant areas.***

## WHAT SMALLER AUTHORITIES NEED TO DO TO ADVERTISE THE PERIOD DURING WHICH ELECTORS AND INTERESTED PERSONS MAY EXERCISE RIGHTS RELATING TO THE ANNUAL ACCOUNTS

The [Local Audit and Accountability Act 2014](#) and the [Accounts and Audit Regulations 2015](#) require that:

- 1) The accounting records for the financial year to which the audit relates and all books, deeds, contracts, bills, vouchers, receipts and other documents relating to those records must be made available for inspection by any person interested, during a period of 30 working days set by the smaller authority and including the first 10 working days of July.
- 2) The period referred to in paragraph (1) starts with the day on which the period for the exercise of public rights is treated as having been commenced i.e. the day following the day on which all of the obligations in paragraph (3) below have been fulfilled.
- 3) The responsible financial officer for a relevant authority must, on behalf of that authority, publish (**which must include publication on the authority's website**):
  - a) the Accounting Statements (i.e. Section 2 of either Form 2 or 3, whichever is relevant, of the Annual Governance & Accountability Return (AGAR)), accompanied by:
    - i) a declaration, signed by that officer to the effect that the status of the Accounting Statements are unaudited and that the Accounting Statements as published may be subject to change;
    - ii) the Annual Governance Statement (i.e. Section 1 of either Form 2 or Form 3, whichever is relevant, of the AGAR); and
  - b) a statement that sets out—
    - i) the period for the exercise of public rights;
    - ii) details of the manner in which notice should be given of an intention to inspect the accounting records and other documents;
    - iii) the name and address of the local auditor;
    - iv) the provisions contained in section 26 (inspection of documents etc.) and section 27 (right to make objections at audit) of the Act, as they have effect in relation to the authority in question;

## HOW DO YOU DO IT?

- 1) You will meet statutory requirements if you fully and accurately complete the notice of public rights pro forma in this document, and publish (**including publication on the smaller authority's website**) the following documents, the day before the public rights period commences:
  - a) the approved Sections 1 and 2 of either Form 2 or 3, whichever is relevant to your smaller authority, of the AGAR; and
  - b) the completed Notice of Public Rights and Publication of Unaudited Annual Governance & Accountability Return. Please note that we have pre-completed it with the following suggested dates: Tuesday 3 June – Monday 14 July 2025. (The latest possible dates that comply with the statutory requirements are Tuesday 1 July – Monday 11 August 2025); and
  - c) the notes which accompany the Notice (Local authority accounts: a summary of your rights).

Where the authority has answered 'No' to any assertions on Section 1, as stated on the face of Section 1 of the AGAR, a sufficiently detailed explanation of the reasons must be published with the AGAR on the authority's website.

## LOCAL AUTHORITY ACCOUNTS: A SUMMARY OF YOUR RIGHTS

Please note that this summary applies to all relevant smaller authorities, including local councils, internal drainage boards and 'other' smaller authorities.

### The basic position

The [Local Audit and Accountability Act 2014](#) (the Act) governs the work of auditors appointed to smaller authorities. This summary explains the provisions contained in Sections 26 and 27 of the Act. The Act and the [Accounts and Audit Regulations 2015](#) also cover the duties, responsibilities and rights of smaller authorities, other organisations and the public concerning the accounts being audited.

As a local elector, or an interested person, you have certain legal rights in respect of the accounting records of smaller authorities. As an interested person you can inspect accounting records and related documents. If you are a local government elector for the area to which the accounts relate you can also ask questions about the accounts and object to them. You do not have to pay directly for exercising your rights. However, any resulting costs incurred by the smaller authority form part of its running costs. Therefore, indirectly, local residents pay for the cost of you exercising your rights through their council tax.

### The right to inspect the accounting records

Any interested person can inspect the accounting records, which includes but is not limited to local electors. You can inspect the accounting records for the financial year to which the audit relates and all books, deeds, contracts, bills, vouchers, receipts and other documents relating to those records. You can copy all, or part, of these records or documents. Your inspection must be about the accounts, or relate to an item in the accounts. You cannot, for example, inspect or copy documents unrelated to the accounts, or that include personal information (Section 26 (6) – (10) of the Act explains what is meant by personal information). You cannot inspect information which is protected by commercial confidentiality. This is information which would prejudice commercial confidentiality if it was released to the public and there is not, set against this, a very strong reason in the public interest why it should nevertheless be disclosed.

When smaller authorities have finished preparing accounts for the financial year and approved them, they must publish them (including on a website). There must be a 30 working day period, called the 'period for the exercise of public rights', during which you can exercise your statutory right to inspect the accounting records. Smaller authorities must tell the public, including advertising this on their website, that the accounting records and related documents are available to inspect. By arrangement you will then have 30 working days to inspect and make copies of the accounting records. You may have to pay a copying charge. The 30 working day period must include a common period of inspection during which all smaller authorities' accounting records are available to inspect. This will be 1-14 July 2025 for 2024/25 accounts. The advertisement must set out the dates of the period for the exercise of public rights, how you can communicate to the smaller authority that you wish to inspect the accounting records and related documents, the name and address of the auditor, and the relevant legislation that governs the inspection of accounts and objections.

### The right to ask the auditor questions about the accounting records

**You should first ask your smaller authority** about the accounting records, since they hold all the details. If you are a local elector, your right to ask questions of the external auditor is enshrined in law. However, while the auditor will answer your questions where possible, they are not always obliged to do so. For example, the question might be better answered by another organisation, require investigation beyond the auditor's remit, or involve disproportionate cost (which is borne by the local taxpayer). Give your smaller authority the opportunity first to explain anything in the accounting records that you are unsure about. If you are not satisfied with their explanation, you can question the external auditor about the accounting records.

The law limits the time available for you formally to ask questions. This must be done in the period for the exercise of public rights, so let the external auditor know your concern as soon as possible. The advertisement or notice that tells you the accounting records are available to inspect will also give the period for the exercise of public rights during which you may ask the auditor questions, which here

means formally asking questions under the Act. You can ask someone to represent you when asking the external auditor questions.

Before you ask the external auditor any questions, inspect the accounting records fully, so you know what they contain. Please remember that you cannot formally ask questions, under the Act, after the end of the period for the exercise of public rights. You may ask your smaller authority other questions about their accounts for any year, at any time. But these are not questions under the Act.

You can ask the external auditor questions about an item in the accounting records for the financial year being audited. However, your right to ask the external auditor questions is limited. The external auditor can only answer 'what' questions, not 'why' questions. The external auditor cannot answer questions about policies, finances, procedures or anything else unless it is directly relevant to an item in the accounting records. Remember that your questions must always be about facts, not opinions. To avoid misunderstanding, we recommend that you always put your questions in writing.

### **The right to make objections at audit**

You have inspected the accounting records and asked your questions of the smaller authority. Now you may wish to object to the accounts on the basis that an item in them is in your view unlawful or there are matters of wider concern arising from the smaller authority's finances. A local government elector can ask the external auditor to apply to the High Court for a declaration that an item of account is unlawful, or to issue a report on matters which are in the public interest. You must tell the external auditor which specific item in the accounts you object to and why you think the item is unlawful, or why you think that a public interest report should be made about it. You must provide the external auditor with the evidence you have to support your objection. Disagreeing with income or spending does not make it unlawful. To object to the accounts you must write to the external auditor stating you want to make an objection, including the information and evidence below and you must send a copy to the smaller authority. The notice must include:

- confirmation that you are an elector in the smaller authority's area;
- why you are objecting to the accounts and the facts on which you rely;
- details of any item in the accounts that you think is unlawful; and
- details of any matter about which you think the external auditor should make a public interest report.

Other than it must be in writing, there is no set format for objecting. You can only ask the external auditor to act within the powers available under the [Local Audit and Accountability Act 2014](#).

### **A final word**

You may not use this 'right to object' to make a personal complaint or claim against your smaller authority. You should take such complaints to your local Citizens' Advice Bureau, local Law Centre or to your solicitor. Smaller authorities, and so local taxpayers, meet the costs of dealing with questions and objections. In deciding whether to take your objection forward, one of a series of factors the auditor must take into account is the cost that will be involved, they will only continue with the objection if it is in the public interest to do so. They may also decide not to consider an objection if they think that it is frivolous or vexatious, or if it repeats an objection already considered. If you appeal to the courts against an auditor's decision not to apply to the courts for a declaration that an item of account is unlawful, you will have to pay for the action yourself.

For more detailed guidance on public rights and the special powers of auditors, copies of the publication [Local authority accounts: A guide to your rights](#) are available from the NAO website.

If you wish to contact your authority's appointed external auditor please write to the address in paragraph 4 of the *Notice of Public Rights and Publication of Unaudited Annual Governance & Accountability Return*.
